**FOLLOW UP TO THRIFT INDUSTRY DAY AND ITEMS FOR LEGISLATIVE CONSIDERATION**

*October 24, 2016*

This email is to follow up on Thrift Industry Day and the survey results. Thanks to all who attended the event or filled out the survey. We are in the process of planning our Tenth Thrift Industry Day for 2017. The suggestions on the surveys and other comments we have received are useful in our planning.

We also appreciate comments we received about the Legislative recommendations I talked about at Thrift Industry Day. Based on those comments, we made some revisions to the list of recommended Legislative amendments. **Attached to this email is the revised list as presented to the Finance Commission at its October meeting.** If you have further comments or questions about the recommendations, please contact me.

As always, we welcome comments, questions, and feedback.

Caroline C. Jones  
Commissioner
