NEW SUPPLEMENTAL FORM

This e-mail is to inform you that there has been a modification to the quarterly Call Report supplement that you provide to this agency each quarter. The modification is designed to capture reporting of monthly compliance with QTL and gather emergency contact information. To accomplish this, the form has been expanded to include space to report the QTL ratio for each month during the quarter. Additionally, space to provide emergency contact information is now located at the bottom of the form.

The updated supplement is attached to this message and is available on our website at http://www.sml.texas.gov/StateSavingsBanks/ssb_news_information.html.

Please forward the schedule and/or link to the person in your institution who is responsible for the task of completing this schedule each quarter. Please instruct them to begin using the new form immediately, corresponding to the Call Report period ending March 31, 2018.

Please contact your Supervisory Analyst if you have any questions about this change.

Thank you.
